

Do you assess children and/or adults for SpLDs/Dyslexia?

Would you be interested in joining Dyslexia Scotland's list of assessors for those seeking an identification of dyslexia?

In 2016, **43%** of the overall enquiries of enquiries to Dyslexia Scotland's helpline were from people asking for an assessment.

Dyslexia Scotland is seeking to expand its list of contacts to give enquirers access to a suitably qualified person able to assess them.

**If you would like your name added to the list of assessors, and you hold a relevant qualification in the assessment of SpLDs/Dyslexia, we'd be pleased to hear from you.**
