

ROYAL
HOLLOWAY
UNIVERSITY
OF LONDON

Are you interested in participating in a study about **dyslexia** and **emotions**?

We are looking for university students **with** and **without** dyslexia to take part in our psychology research.

We are investigating how certain academic scenarios can provoke anxiety. We are interested in differences between students with and without dyslexia. We also want to find out if our emotional regulation strategy can help.

This online study will take approximately **15-20 minutes**. You will need a laptop, computer or tablet.

You will be asked to rate your anxiety in specific academic scenarios and answer a few short questionnaires.

You will receive a £5 Amazon voucher as a thank you.

To take part or for more information please email:
