

Dyslexia-friendly Scotland survey

Taking the temperature

If you are dyslexic (or think you are) and aged 16 or older, we want to get your response. If you are not dyslexic, please do your part by encouraging or supporting those you know with dyslexia to do the survey. Use the QR code above or visit dyslexiascotland.org.uk.

Taking part and giving your answers is a critical first step in making Scotland a better place for people with dyslexia to live, learn, work, play and grow up in.
